

WorkTime® Corporate – Licensing

WorkTime® Corporate is a software system for Windows, Linux, Terminal Services/Citrix installed on customer's (your) computers/servers. Count how many licenses of WorkTime Corporate you need and proceed with the purchase here: <http://www.nestersoft.com/worktime/register.shtml>

How many licenses you need

You need as many WorkTime Corporate licenses as the amount of employees you want to monitor. For example: if you want to monitor 250 employees, you need 250 WorkTime Corporate licenses.

Note: for Terminal/Citrix Server the price can be calculated based either on employees amount or on servers amount. To get the price based on servers amount, please contact sales@nestersoft.com

Fees

WorkTime Corporate license is a one-time purchase, not a subscription. There is a one time license fee and no monthly/annual charges. Once purchased the license never expires and can be used without any additional charge.

What do you get with your purchase

The license includes permission to use WorkTime Corporate, one year of technical support and one year of upgrades to all new WorkTime Corporate versions. The license includes the following components: one WorkTime Server, unlimited amount of WorkTime Administrators.

After purchasing WorkTime Corporate required amount of licenses, you get:

Permission to use purchased amount of licenses		
	1 st , 2 nd , 3 rd , ... years License never expires	
Permission to use WorkTime Server (one) and WorkTime Administrator (unlimited)		
	1 st , 2 nd , 3 rd , ... years License never expires	
Technical support		
	1 st year Technical support included	2 nd , 3 rd , ... years Technical support not included
Upgrades to new versions		
	1 st year Upgrades included	2 nd , 3 rd , ... years Upgrades not included

How to extend technical support and updates after one year

Your license never expires and you can use it as long as you need. However, if you want to update to the latest WorkTime Corporate version and to get technical support **after one year**, purchase extensions of these services here: <http://www.nestersoft.com/worktime/register.shtml?add&upd=1>
